Welcome to Data Analysis and Insight for School Improvement (DAISI). Based in Nottingham we offer a nationwide service to schools.

We work in partnership with schools:

- to help schools manage and use data more effectively to deliver continuous and sustainable improvement
- to allow school leaders to spend their time acting on the analysis rather than drowning in dense data processing
- to provide the most relevant and informative business intelligence to improve outcomes for pupils
- focusing on what data is captured and how it can be used
- providing clear visualisations taken from vast performance data presented in a highly effective format that is simple to understand
- ensuring robust benchmarking information so correct comparisons are drawn

Developed through our collaborative approach and supportive relationship with schools we have a range of effective products and services. Triangulating quantitative data with user and professional views we produce intelligence for your school to help you plan effectively, monitor performance, focus improvements and evaluate outcomes to support you through the cycle of self-assessment and review to provide evidence for what you do, how well you do it and the all-important, how it makes a difference.
“Question Level Analysis (QLA) is your time saving, granular analysis of your pupils’ performance in the new 2016 KS2 SATs.”

**Benefits**
- **Reduction in teacher workload**
  - Labour saving and stress free processing of 2016 test papers
- **Assessment Reports are clear and simple to read**
  - Providing a clear assessment of pupil attainment
- **Inform you if your pupils have met the 2016 national curriculum standards**
  - Review teaching and learning strategies against outcomes
- **Focuses intervention**
  - QLA is forensic and informs intervention—focusing teaching
- **Help quality assure your internal moderation process**
  - Endorse the quality of your internal results against the outcome of tests
- **Provides a collaborative means of support and challenge**
  - Share reports with governors and with other schools for school to school improvement
- **Prepares you for an inspection**
  - Good evidence of secure learning and attainment and identified areas for improvement

**Pricing**

Quick, affordable and value for money...
- Maths, Reading & GPS QLA reports £225

For more details, please email: daisi@nottinghamcity.gov.uk

**Publication**

Reports published in three working days of receipt of data via Perspective Lite or password encrypted email.

**DAISI QLA** uses a pupil’s response to individual questions from all 2016 SATs tests. Individual pupil performance can be examined, identifying strengths and weaknesses, or overall performance of a class, cohort or identified group of pupils. DAISI QLA provides you with an assessment report for each paper submitted showing you overall test performance, question summary results, results by term of birth, question types results and question performance by groups and question performance by pupil. The reports provide a clear assessment of how children performed in each subject and you can quickly spot the strengths and weaknesses and bring sharper focus to areas of need.

“QLA allows you to start the new academic year in control”

A fully automated service allowing teachers to spend more time planning.
