- Use to present your data in a simple way to Governors and school improvement partners to help them support you better.

*“Analysis with both staff and governors is so much more effective with the DAISI ASaP reports. The visual presentation makes it accessible to all, staff quickly assimilate the information they need to support their subject and school development plans. Whilst governors have the overview and detail they require to enable them to ask relevant, pertinent and searching questions with confidence and understanding.”*
