## Data, Analysis and Insight for School Improvement

**Question Level Analysis** breaks assessment data down into meaningful insight that teachers, pupils and parents can all use to make a real difference.

- **By looking at your school cohorts in detail** – you can refine your curriculum to work for all pupils not just the most able or larger "on track" groups.

- **By looking at how individual pupils performed through the year**, you can see where to focus teaching in the current year or next to raise attainment across the school.

- **It can guide school decisions** when targeting resources, or even when creating a new curriculum – giving valuable instructions for the future by looking at the gaps from the past.

# What do you find in DAISI QLA?

Whatever assessment you use, we always start with a summary. This provides an overall view (for example, how many pupils passed or nearly passed), but also looks at the important topic and cohort headlines.

**This analysis gives you a clear starting point – focussing in on the headlines and points for you to focus on as the deeper analysis continues.**

We divide the questions into bespoke Topics – allowing teachers to create their bespoke lesson plans to address the learning gaps right at the start of the year.
**This analysis allows you to look at your cohort as a whole to see what teaching could be improved, and how your curriculum could be developed.**

Our Question Analysis has been designed to help Teachers see the types of questions that your pupils found difficult or easier than average.

It might also show certain areas where your pupils are doing better than the National averages, perhaps in areas that could be extended for your most able pupils.

**This analysis can be used to improve your curriculum for the benefit of all pupils.**
For a full analysis of your results, you will need to look more than at your school overall or the overall score per pupil.

We break the results down in your various cohorts – gender, disadvantaged, SEN, EAL and prior attainment.

**This analysis allows you to focus in on the different cohorts within your chosen year group and work with them on the areas in need.**

Our Individual pupil profiles enable you to look at individual pupils and see how they performed

Very simply and clearly, you can see each pupil's strengths and challenges and be able to work with them to change this.

**This analysis is perfect for tutors and individual teaching assistants as they focus on the areas to aid catch-up.**

*"I think they are a great tool and really help us to analyse our data in great detail. I have been telling everyone how good they are & how they have saved hours of work. This has allowed me to focus on how we can improve teaching and learning rather than spending time on the data analysis – a very welcome change."*

# How does a DAISI QLA Work?

## QLA Results

- The DfE will release the Question Level download of your KS2 SATs results.
- Download that file from Analyse School Performance & send to us for your analysis.
- Your reports will be produced and sent back via secure email within days from provision of data.

## Mock SATs Analysis

- When you order any of our Mock SATs QLA, you will need find the past paper you wish to use and administer the test.
- Once the papers are marked, the pupils' results will need to be inputted into our spreadsheet.

**Please enter Pupil Names, UPNS and the individual marks…**

- *0 = Question attempted, no marks.*
- *1 = Question attempted, 1 mark.*
- *2 or 3 = Question attempted, 2-3 marks.*
- *N = Question Not Attempted.*

Once you have returned the spreadsheet, your analysis will then be produced and sent back via secure email within days from provision of data.

## Y6 Maths Baseline / QLA Concise

- Our Bespoke assessments are delivered when requested as a PDF and arrive ready made for photocopying and use in the classroom.

- Teachers will need to mark each paper and input the results in our spreadsheet for our forensic analysis as directed above.

- Once the spreadsheet is completed and returned, we will then create you a full and detailed analysis of the results.

*Data, Analysis and Insight for School Improvement*

**We are a team of expert analysts passionate about turning data into meaningful insight so your pupils can realise their potential.**

DAISI Education was founded in 2011 supplying bespoke analysis to schools in the City of Nottingham. We have now grown nationally and more and more individual Schools, Academies, Trusts, Federations and Local Authorities now trust us with their data needs.

We firmly believe

**Every School is**
**INDIVIDUAL**
& needs personalised insight

**Every Pupil is**
**IMPORTANT**
& deserves true attention

**Every Trust/Federation is**
**DISTINCTIVE**
& requires bespoke detail

**Every Report is**
**UNIQUE**
& Tailor-made

We make analysis easy giving clear and insightful reports that help make the marginal gains to improve school results. We offer a full year-round service and every penny we create is put straight back into education.

As a traded service out of Nottingham City Council, we work with every school and academy within the city and support headteachers and school leaders nationally to understand and manage their data. Our reporting also serves Local Authority officers and Education Improvement Boards with the intelligence needed to inform strategic dialogue and direction.

In 2019, we were also recognised as a 'world class supplier' for our work with outstanding schools by the world schools network – further proof of that our attention to detail and focussed data analysis is continuing to make a difference across the country.

**We believe that each school requires a personalised solution to their data needs and offer timely, unique and tailor-made reports.**
