Data, Analysis and Insight for School Improvement

Welcome to our 2025 Brochure

We are a team of expert analysts passionate about turning data into meaningful insight so your pupils can realise their potential. We believe that each school requires a personalised solution to their data needs and focus on the Insight, not the numbers.

Our Analysis is forensic, detailed and proven to help you to identify the small steps that lead to big changes and improved outcomes. 80% of schools who used DAISI QLA over three years have seen an increase in their attainment.

Headteachers, Governors and School Improvement advisors have all praised our reports as being *“Accessible to all”* and *“Outstanding Best Value!”*.

Our Secondary range focuses on the transition from primary school.

The KS2 SATs give a validated indication of each of your students strengths and weaknesses and the results are available every year – broken down to performance in each individual question. These are standardised assessments – marked independently – and provide the basis for the Progress 8 score in years to come. By using this data, you remove the need for a baseline test and provide a clear footing for the future.

Working with teachers, tutors and a former maths hub lead, we have created an analysis of the KS2 SATs that we believe can really help to inform teaching, guide learning and maintain progress.

Transition Analysis

A Deep Dive into Y7 – More than Scaled Score

- No need to run a Baseline Assessment
- Individual Pupil Profiles for every child
- Full Topic Insight organised into Bespoke Class Groups
- Full Cohort Analysis – gender, disadvantaged, SEN, EAL and more.
- Set Yourself up for Progress 8 with forensic analysis.

Forensic Analysis of your New Year 7's SATs Results

QLA-Transition breaks down your new Year 7's SATs results to give you detailed insight into your new pupils' Strengths and Weaknesses before they even set foot in your school. Our analysis, created in collaboration with teachers, ASTs and a former Maths Hub Lead, has been designed with Ofsted, Departmental Heads and Class Teachers in mind.

It works across three levels of your school...

Full Overview for Heads of Department / Heads of Year

QLA Transition allows you to see a full overview of your pupil's results in English and Maths allowing you to focus in as a department on specific areas for intervention.

Whatever assessment you use, you have to start with taking an overall view (for example, how many pupils passed or nearly passed), but also at the important topic strands, seeing how the school is doing, and "producing clear next steps for pupils".

Our summary reports give you the full overview – focussing in on the headlines and points for you to focus on as the deeper analysis continues

Detailed Insight for Classroom Teachers

Our analysis can be pre-arranged into bespoke class teaching groups.

This allows you to give your teachers the full picture of the classes before them with bespoke analysis about the class strengths and weaknesses enabling for early intervention to take place across every set.

We divide up the questions into bespoke Topics – allowing teachers to create their bespoke lesson plans to address the learning gaps right at the start of the year. This analysis allows you to look at your class as a whole to see what teaching could be improved, and how your curriculum could be developed.

This analysis has been designed to help Teachers see the types of questions that your pupils found difficult or easier than average. It might also show certain areas where your pupils are doing better than the National averages, perhaps in areas which could be extended for your most able pupils.

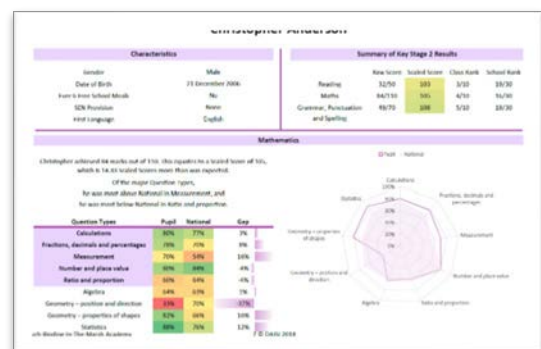

For a full analysis of your results, you will need to look more than at your school overall or the overall score per pupil. We break the results down in your various cohorts – gender, disadvantaged, SEN, EAL and prior attainment. This analysis allows you to focus in on the different cohorts within your chosen year group and work with them on the areas in need.

Individual Pupil Profiles

Our easy-to-read pupil profiles allow you to see how each individual pupil performed in National Tests. Very simply and clearly, you can see each pupil's strengths and challenges and be able to work with them to change this.

These profiles are perfect for tutors and individual teaching assistants as they focus on the areas to aid catch-up for targeted pupils at the start of their secondary journey.

How do we create the Transition Analysis?

To create your analysis, we will require you to download the results from Analyse School Performance and send them to us (Instructions are provided). We will then transform the numbers into Overview packs. If you would like the bespoke class sets created in your teaching groups – we will require a named list including UPNs and we will recreate the analysis free of charge. Data permitting, we hope to be able to create your analysis as soon as possible to the start of the winter term.

“Daisi Transition provides key topic evaluation to prioritise areas of focus in the catch-up sessions enabling more targeted and focused intervention to take place.”

KS3 Teaching and Learning Leader, Trinity Catholic High School, Essex

“Thank you so much for these reports – really useful and saved us a mountain of work”

The Elizabethan Academy, Nottinghamshire (The Elizabethan Academy Trust)

“I particularly like the pupil profiles and will be able to use these for identifying our able and year 7 catch up students.”

KS3 Teaching and Learning Leader, Trinity Catholic High School, Essex

Year 7 Maths Baseline

Focus your Teaching from the start of Year 6

- One Hour long Assessment
- All questions taken from previous SATs papers.
- Chosen to provide full KS2 curriculum coverage.
- Forensic Analysis for Teachers for use in Year 7.
- Clear Starting Point for Progress 8

Our Maths Baseline gives a clear indication of Maths performance at the start of Year 7 and enables you to guide bespoke interventions.

Our Year 7 Maths Baseline looks at the whole KS2 Maths Curriculum. All the questions have been taken from SATs past papers – each carefully chosen to guarantee every topic is assessed and a variety of question types are attempted. They therefore can provide the same forensic analysis as if looking at all three Mathematics papers.

Our detailed analysis gives a clear overview of how the cohort performed down to the performance in every question. This includes our pupil profiles which give a visual starting point for all intervention and teaching required throughout year 7.

What do we need you to do?

Each assessment is delivered as a PDF and arrives ready made for photocopying and use in the classroom saving you valuable time. It comes with its own mark scheme giving a clear indication of where each question has been taken from in the original paper. Teachers will need to mark each paper and input the results in our spreadsheet for our forensic analysis. You would need to enter names, UPNS and the individual marks into our spreadsheet.

Bespoke Assessment Paper to guide interventions

- One hour Assessment – easy to use in one lesson
- Full Mark Scheme linked to original topics and questions.
- Each question cross-referenced showing what each question is assessing.

Full and Forensic Analysis of the Results

- Detailed Insight by Topic, Question and Cohort to enable you to see specific groups.
- Single Page Views allowing you to identify key gaps and prioritise interventions.
- Pupil on a Page Profiles to guide teaching through Year 7

“WOW! Money well spent! Thanks so much for the swift turn around. Amazing... Once again, amazed with the service. Thank you very much indeed this is a massive help.”

Exams & Assessment Manager, Park View School, Durham

How to Order

All our Data Analysis is ordered through our website – www.DAISI.education.

Here you will find the order forms plus loads more including...

- [Blogs on Education](#)
- [Free Data Guides on all stages of Education](#)
- [Online Training Courses](#)
- [Home Learning Resources](#)
- [Fun Activities for all the family](#)

We don't glamorise Data Analysis. We continue to be straight and open about the fact that for many people Data Analysis is not always the most exciting task. We know our products won't dramatically change your life but they will help get a difficult task done quickly and easily.

Feedback from Schools we have helped over the years...

“In my role as deputy headteacher of a big school as well as assessment coordinator, there is no way I have the time or capacity to complete QLA to the level & in the detail that the DAISI team do. They save me days of work & the information this gives me allows us to develop whole school targets that we can show improve the attainment of our pupils. I am a massive fan of DAISI Analysis and find it invaluable.”

Seely Primary & Nursery School, Nottingham

“These reports are so thorough and useful. Subject leaders and Raising Standards Leaders in each primary school are going to be able to use this information to inform teaching and learning opportunities, not just in Year 6, but across the trust. Some of the graphs used were new to me – it's always good to be challenged by information presented in a different way!”

Ravensthorpe Primary School (Peterborough Keys Trust)

Bespoke Orders

Local Authorities, School Federations, Multi Academy Trusts

Every one of our Individual analysis reports can be purchased together for a bespoke group in a package designed for you. As part of this, we will also combine the analysis to create a free higher level summary report for senior leaders.

- Every headteacher receives personalised analysis
- Free high level summary report collating all the data together.
- Data collection and Report send out all organised by DAISI.

All our Partnerships start with a conversation – click to start yours...

Data, Analysis and Insight for School Improvement

We are a team of expert analysts passionate about turning data into meaningful insight to help all pupils realise their potential.

DAISI Education was founded in 2011 supplying bespoke analysis to schools in the City of Nottingham. We have now grown nationally and more and more individual Schools, Academies, Trusts, Federations and Local Authorities have chosen us for forensic analysis of their data.

We firmly believe

Every School is

INDIVIDUAL

& needs personalised insight

Every Pupil is

IMPORTANT

& deserves true attention

Every Trust/Federation is

DISTINCTIVE

& requires bespoke detail

Every Report is

UNIQUE

& Tailor-made

We make analysis easy giving clear and insightful reports that help make the marginal gains to improve school results. We believe that each school requires a personalised solution to their data needs and offer timely, unique and tailor-made reports. Headteachers, Governors and School Improvement advisors have all praised our reports as being *“Accessible to all”* and *“Outstanding Best Value”*.

“Analysis from DAISI Education seriously helps to reduce the workload for Senior Leaders”

HEADTEACHER CHAT

As a traded service out of Nottingham City Council, our reporting also serves Local Authority officers and Education Improvement Boards with the intelligence needed to inform strategic dialogue and direction. We offer a full year-round service and every penny we create is put straight back into education.

In 2019, we were recognised as a ‘world class supplier’ for our work with outstanding schools by the world schools network – further proof of that our attention to detail and focussed data analysis is continuing to make a difference across the country.

Why not make DAISI a key part of your School Improvement Journey this year?
