*Data, Analysis and Insight for School Improvement*

## Empowering Multi-Academy Trusts with Strategic Data Insight

Whether your Trust spans a handful of schools or a large, diverse group of academies, we all share a common mission: **improving educational outcomes for every pupil**. At DAISI Education, we're here to support that mission with bespoke, question-level analysis that transforms assessment data into actionable insight.

### Strategic Reporting for Trust-Wide Impact

Our tailored reports are already helping MATs across the country make informed, strategic decisions that lead to measurable improvement. By drilling down into your assessment data, we help you identify small, incremental changes that collectively drive significant progress. From classroom interventions to trust-wide curriculum planning, our analysis pinpoints exactly where support is needed.

### What Can We Offer Your Trust?

Our reports have been widely praised by Headteachers, Governors, and School Improvement Advisors as being “*accessible to all*,” “*timesaving*,” and “*outstanding best value*.” Designed to be clear, actionable, and tailored to your specific context, they provide deep insight into performance trends and areas for development.

### [Unlock powerful insights from your KS2 SATs results.](#)

Our detailed KS2 SATs Results Analysis has helped schools across the UK unlock powerful strategies that lead to measurable improvements and long-term success. Discover what your data is really telling you...

- Full Insight into Every Topic, Question, Cohort and Pupil
- Proven to drive data conversations and improve curriculum
- 80% of schools that used our analysis over three years have seen a measurable rise in attainment.

### [Find those Learning Gaps at the start of Year 6](#)

Our one-hour diagnostic assessment, built from real SATs questions, reveals hidden learning gaps from Years 3–5—before they impact Year 6 outcomes.

- Pre-prepared Assessment: that can be used in one lesson.
- Detailed focus: on Years 3–5 curriculum, not Year 6
- Personalised pupil profiles: for targeted teaching and smarter intervention

## Group Orders for MATs: A Joined-Up View

**Our individual analysis reports can be bundled into a bespoke package, tailored to your Trust's strategic priorities.**

Ordering as a group unlocks a powerful, joined-up view—providing comprehensive insights for all stakeholders, from classroom to boardroom.

- Uniform Analysis: supporting both school-level reflection and cross-school collaboration
- Custom focus: choose Reading, GPS, Maths, or a full KS2 overview
- Cohort focus: Order for all your schools or just a select few.

Our dual-level analysis supports both school-level reflection and cross-school collaboration, helping leaders align strategy, share best practice, and drive improvement where it matters most.

- **Every headteacher deserves more than a one-size-fits-all report.** That's why we deliver sharp, personalised data insights—on time, in depth, and tailored to the unique needs of each school. Our reports don't just show results—they uncover stories, spotlight trends, and empower leaders to take decisive, informed action.
- **Our summary reports give Trust leaders and governors a clear, high-level view of performance across all academies.** By combining assessment outcomes, cross-school comparisons, and national benchmarks, we equip you to challenge, support, and drive improvement where it matters most.

## Become a Partner of DAISI Education

We understand the financial pressures facing MATs. That's why we offer flexible partnership models and generous group discounts on centrally placed orders. Our Partnership Discount Scheme also allows individual schools within your Trust to benefit from fixed discounts (typically 10–15%)—even when ordering independently.

This model has already delivered success in areas like Luton and Wirral, where schools enjoy both flexibility and the benefits of coordinated insight.

We'd be delighted to discuss how our reporting packages can support your Trust's goals.

Please don't hesitate to get in touch to explore how we can work together to drive improvement across your academies.

Yours sincerely,

Mark Attwood
