DAISI Education

Data, Analysis and Insight for School Improvement

Welcome to our 2026 Brochure for School Federations

Whether your federation brings together a small cluster of schools or a broad, diverse partnership, we all share the same mission: improving educational outcomes for every pupil. At DAISI Education, we're here to support that mission with bespoke, question-level analysis that turns assessment data into clear, actionable insight.

Empowering Schools since 2011

Since 2011, we've helped many schools and academies turn complex information into clear, actionable insights. Our Product range delivers powerful data analysis designed to make a real difference in all your academies. We keep data analysis straightforward because we know it's not everyone's favourite task. Instead of overwhelming with numbers, our reports focus on insight, identifying the small steps that lead to big changes.

- ✓ Affordable – Tools for every school, regardless of size or budget
- ✓ Accessible – Used by teachers, leaders, and governors
- ✓ Impactful – Insights that support learning and drive progress
- ✓ Trusted – By school leaders nationwide for over a decade.
- ✓ Proven – Delivering clarity and confidence where it matters most.

Strategic Reporting for a Federation - Wide Impact

Our tailored reports are already helping federations across the country make informed, strategic decisions that lead to measurable improvement. By drilling down into your assessment data, we help you identify small, incremental changes that collectively drive significant progress. From classroom interventions to federation-wide curriculum planning, our analysis pinpoints exactly where support is needed.

"From the outset, working with the DAISI team has been a positive experience. They are responsive to the needs of the authority and schools and have enabled us to develop the service to meet our needs. Schools have been very impressed with the quality and content of the reports. The presentation of information is very comprehensive and easy to access at various levels, whether you want an overview or more detailed understanding of performance. The service is good value for money. I am delighted that we have entered into this partnership which is mutually beneficial to both parties and invaluable in these times of limited resources."

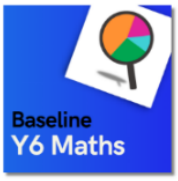
Carol Wylde, School Improvement Adviser, Luton Council

Forensic Analysis for every Headteacher

Our unique and tailor-made assessments, results analysis and reports have been proven to help improve outcomes and save teacher's time. By ordering together, you create a uniform picture enabling closer working and a clear strategy.

KS2 SATs Results

To guide curriculum change in the future

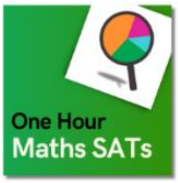


Y6 Maths Baseline

Looking at the Y3-5 Curriculum only

Mock SATs

Take a deep dive into one subject or all three?



One Hour Maths

A quicker look at progress in Mathematics

Detailed Insight - Proven to drive Conversation

We started working in partnership with Wirral Council in 2023. Since then, we have provided detailed analysis of KS2 SATs Results plus our Year 6 Maths Baseline. The PDF reports provided have enabled school improvement officers to take a real hands-on approach to address a key area across their schools. Headteachers are coming together to discuss the data and how to improve their curriculum based on evidence.

"Mark, Shaun and the team at DAISI have provided us with the in-depth information required to really drill down and discover what needs to be done to improve mathematics outcomes. Not only has their diagnostic information enabled us to identify specific strengths and weaknesses, it has also enabled us to flag up key pupil cohort achievement. As a result, leaders are adapting the taught curriculum to ensure any gaps in knowledge are being effectively addressed. I would recommend the DAISI analysis package to anybody who really wants to understand what their assessment information is truly telling them."

Senior School Advisor – School Effectiveness, Wirral Council

One Central Order or **Partner with Us**

Federations can access our services through a Bespoke Group Order or by joining our Partnership Discount Scheme—enjoying the flexibility of ordering directly via our website while still benefiting from a coordinated, federation-wide approach. Explore the option that best fits your federation and unlock powerful, personalised data insight for every school.

Bespoke Group Order | Partner with Us | Who are We?

DAISI Education
Data, Analysis and Insight for School Improvement

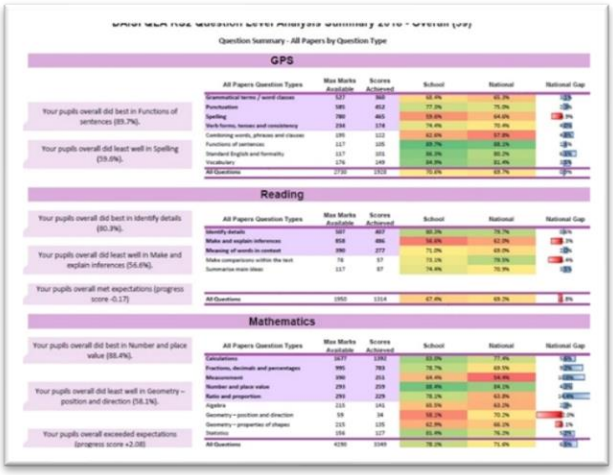
KS2 SATs Results

Proven to help Improve Outcomes over time

- No data inputting for schools!
- See areas that are secure & gaps to focus on.
- Full Insight by Topic, Cohort and more
- Individual Pupil Profiles for every Pupil
- Forensic analysis to focus teaching and inform curriculum planning for the future.

Three powerful Subject reports for Maths, Reading and GPS plus full Summary Report and Individual Pupil Profiles.

Each Subject report shows:



overall test performance

outcomes by groups including gender, disadvantaged, SEN, EAL and prior attainment and more..

Benefits for you

Evidence based discussion for implications for the next academic year and what intervention strategies are needed.

Reports ready to share with Assessment Leads. Senior Leaders, Subject Leaders, School Improvement Partners, Governors and Ofsted.

Single page views with clear graphs and charts, simple tables, colour coding and benchmarking that Immediately show areas that are secure and the gaps to focus on.

Each question cross-referenced; domain references/mark scheme/test framework, showing which subject area each question is assessing.

Share reports with other schools; identify common trends/needs, commission CPD support and identify successful curricula interventions.

"Fantastic and so simple to use. In addition, it would have taken us an inordinate length of time to produce anything quite like it… Thank you! Outstanding Best Value!!!"

Broadway Junior School, Sunderland

"After showing our Executive Headteacher the quality of the analysis you have provided, she has asked me to let you know how impressed we are with the analysis, including the speed we received it. We really appreciate the program you have developed to do this. We could never have achieved the same depth of analysis with the equivalent cost of staff time."

Assistant Headteacher, Gleadless Primary School, Sheffield

Data, Analysis and Insight for School Improvement

Mock SATs Past Papers

Every Question, Topic, Cohort and Pupil

- Every Question analysed in detail.
- Full Topic Breakdown across all papers.
- Single Page views with clear graphs and charts
- Individual Pupil Profiles for every pupil
- Give your teachers the tools to work with every individual pupil in the build up to KS2 SATs.

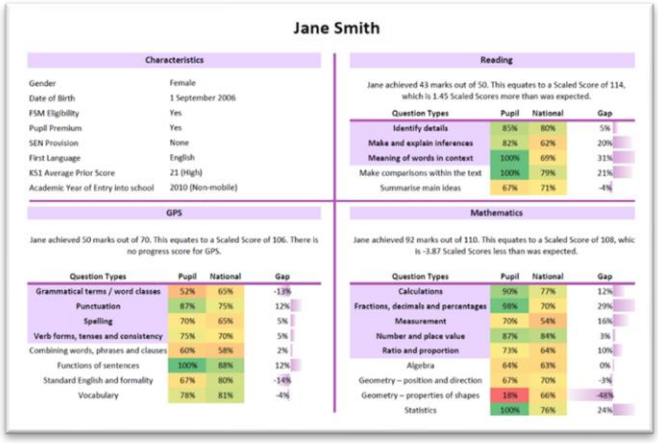
Available with 2016 - 2019 and 2022, 2023, 2024, 2025 SATs papers.
Order a full Set or for Individual Subjects

Targeted Topic Focus

We divide up the questions into bespoke Topics – allowing teachers to create their bespoke lesson plans to address the learning gaps and create a bespoke curriculum around the needs of their pupils. Detailed insight allows you to target areas and make marginal gains.

Detailed Cohort Insight

We break your results down into all your many cohorts – gender, disadvantaged, SEN, EAL, prior attainment and more - to enable you to work with them on the areas in need.



Jane Smith

Characteristics

Gender	Female
Date of Birth	1 September 2006
FSM Eligibility	Yes
Pupil Premium	Yes
SEN Provision	None
First Language	English
KS1 Average Prior Score	21 (High)
Academic Year of Entry into school	2010 (Non-mobile)

Reading

Jane achieved 43 marks out of 50. This equates to a Scaled Score of 114, which is 1.45 Scaled Scores more than was expected.

Question Types	Pupil	National	Gap
Identify details	85%	80%	5%
Make and explain inferences	82%	62%	20%
Meaning of words in context	100%	69%	31%
Make comparisons within the text	100%	79%	21%
Summarise main ideas	67%	71%	-4%

GPS

Jane achieved 50 marks out of 70. This equates to a Scaled Score of 106. There is no progress score for GPS.

Question Types	Pupil	National	Gap
Grammatical terms / word classes	52%	65%	-13%
Punctuation	87%	75%	12%
Spelling	70%	65%	5%
Verb forms, tenses and consistency	75%	70%	5%
Combining words, phrases and clauses	60%	58%	2%
Functions of sentences	100%	88%	12%
Standard English and formality	67%	80%	-14%
Vocabulary	78%	81%	-4%

Mathematics

Jane achieved 92 marks out of 110. This equates to a Scaled Score of 108, whic is -3.87 Scaled Scores less than was expected.

Question Types	Pupil	National	Gap
Calculations	90%	77%	12%
Fractions, decimals and percentages	98%	70%	29%
Measurement	70%	54%	16%
Number and place value	87%	84%	3%
Ratio and proportion	73%	64%	10%
Algebra	64%	63%	0%
Geometry – position and direction	67%	70%	-3%
Geometry – properties of shapes	18%	66%	-48%
Statistics	100%	76%	24%

Individual Pupil Performance

Our Pupil on a Page profile enables the class teacher to focus in on the areas of need for each individual child. See the questions and topics that need extra focus. This analysis is perfect for tutors and individual teaching assistants alike for personalised interventions.

"Enormous thanks for the QLAs. I'm really pleased with them. My Y6 teachers can now focus their teaching on specific areas during the spring and early summer to give the children the best possible chance of achieving their potential in the SATs."

Grangehurst Primary School, Coventry

"Thankyou! We have found the DAISI reports very useful – not only for identifying weaknesses in particular groups in the cohort – but to think about changes we might need to make to our new Year 6 next year."

Kirkburton Middle School, Huddersfield (The Mast Academy Trust)

DAISI Education
Data, Analysis and Insight for School Improvement

One Hour Maths

Why do three papers when one will do?

- One Hour long Assessment in Mathematics
- All questions taken from previous SATs papers.
- Chosen to provide full KS2 curriculum coverage.
- Same topic ratio as the full SATs papers.
- Forensic Analysis for Teachers for use in the build up to the KS2 SATs.

Our OneHourMaths gives schools the choice to run shorter SATs based tests whilst still providing that essential detailed and forensic analysis.

Our OneHourMaths papers look at the whole KS2 Curriculum. All the questions have been taken from SATs past papers – each carefully chosen to guarantee every topic is tested and a variety of question types are attempted. They therefore can provide the same forensic analysis as if looking at all three Mathematics papers.

As part of the package, we also provide a Full and Forensic Analysis of the Results including by topic, question type, all your many cohorts plus our individual pupil profiles specially designed to aid interventions.

What do we need you to do?

Each assessment is delivered as a PDF and arrives ready made for photocopying and use in the classroom saving you valuable time. It comes with its own mark scheme giving a clear indication of where each question has been taken from in the original paper. Teachers will need to mark each paper and input the results in our spreadsheet for our forensic analysis. You would need to enter names, UPNS and the individual marks into our spreadsheet.

Time-Saving Assessment Paper and Mark Scheme

- Shorter Assessment – arrives pre-prepared saving teacher time.
- Full Mark Scheme linked to original topics and questions.
- Each question cross-referenced showing what each question is assessing.

Detailed Forensic Analysis of the Results

- Forensic Topic Insight across all categories
- Cohort Analysis to enable you to see specific groups.
- Detailed Insight allowing you to identify key gaps and prioritise interventions.

"I think they are a great tool and really help us to analyse our data in great detail. I have been telling everyone how good they are & how they have saved hours of work. This has allowed me to focus on how we can improve teaching and learning rather than spending time on the data analysis – a very welcome change."

Captain Cook Primary School, Middlesbrough (James Cook Learning Trust)

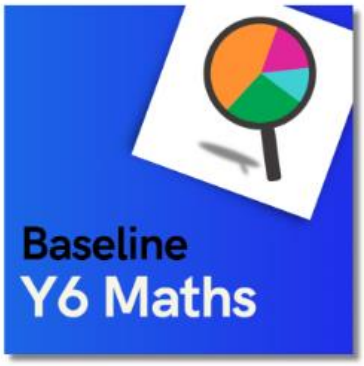
DAISI Education
Data, Analysis and Insight for School Improvement

Year 6 Maths Baseline

Focus your Teaching from the start of Year 6

- One Hour long Assessment
- All questions taken from previous SATs papers.
- Chosen to focus only on Y3, Y4 and Y5 curriculum.
- No material due to be covered in Year 6
- Same topic ratio as the full SATs papers.
- Forensic Analysis for Teachers for use throughout Year 6 in the build up to the KS2 SATs.



Our Mathematics Baseline is designed for you to use at the start of Year 6 to help identify key gaps and prioritise actions for the future.

Our Mathematics Baseline Assessment is designed for you to use at the end of Year 5 or start of Year 6 to help identify key gaps and prioritise actions for the future. All questions have been taken from the three Mathematics SATs papers – focusing only on the Year 3, Year 4 and Year 5 curriculum. No material due to be covered in Year 6 is included in the assessment.

Our Individual Pupil Profiles give you a personalised overview

Our detailed analysis give a clear overview of how the cohort performed down to the performance in every question. This includes our pupil profiles which give a visual starting point for all intervention and teaching required throughout year 6.

What do we need you to do?

Each assessment is delivered as a PDF and arrives ready made for photocopying and use in the classroom saving you valuable time. It comes with its own mark scheme giving a clear indication of where each question has been taken from in the original paper. Teachers will need to mark each paper and input the results in our spreadsheet for our forensic analysis. You would need to enter names, UPNS and the individual marks into our spreadsheet.

Bespoke Assessment Paper to guide interventions

- One hour Assessment – easy to use in one lesson
- Carefully designed to cover only the Year 3-5 Curriculum
- Full Mark Scheme linked to original topics and questions.

Full and Forensic Analysis of the Results

- Detailed Insight by Topic, Question and Cohort to enable you to see specific groups.
- Single Page Views allowing you to identify key gaps and prioritise interventions.
- Pupil on a Page Profiles to guide teaching through Year 6

"It is good to look for areas/types of questions where children have struggled and we need to focus on further in the future. The QLA for each individual child is useful when looking at specific children within groups SEN, FSM, PP looking particularly at their individual progress in each subject."

Headteacher, Fernwood Primary School, Nottingham

DAISI Education
Data, Analysis and Insight for School Improvement

Analyse School Performance

We look for the answers to save you time

- No data inputting required
- Clear performance statements for your SEF
- Detailed Analysis into all your many Cohort Groups (not included in ASP)
- First created with the unvalidated data and fully updated for free with the validated data later in the year.

Time Saving Forensic Analysis of Analyse School Performance

Designed and created to help you save time and use your data well.

The DfE's Analyse School Performance (ASP) service is used to judge your school and so it is important that headteachers are fully aware of what it says as this could drive the data conversations at a later date.

You can easily:

- Incorporate key messages into the data section of your SEF or school development plan
- Work with key staff to ensure evidence-based decisions are taking place around curriculum planning
- Use to present your data in a simple way to Governors and school improvement partners to help them support you better.

The data download from ASP takes no more than 5-10 minutes and full instructions are provided. Once created, we will send your bespoke analysis back to you by encrypted email.

"Analysis with both staff and governors is so much more effective with the DAISI ASaP reports. The visual presentation makes it accessible to all. Staff quickly assimilate the information they need to support their subject & school development plans - whilst governors have the overview & detail they require to enable them to ask relevant and searching questions with confidence and understanding."

Head Teacher, Athelstan Community Primary School

"Really analytical review of ASP – Exactly what I needed"

Head Teacher, Bushmead School, Cambridgeshire

"Will save huge amounts of time and support Governor/SLT knowledge. So glad I purchased it!"

Headteacher, Westglade Primary School

Data, Analysis and Insight for School Improvement

Transition to Secondary

A more aligned curriculum journey from Y5 → Y6 → Y7

Most schools are sitting on powerful insights from their KS2 SATs results and don't use them. With the right analysis, those insights could help your secondaries.

Partnership
Working Together

Make Transition a coordinated strategy — not a handover.

One joined up and standardised approach across both phases

Why not work together and create a joined-up Picture?

The KS2 SATs hold a wealth of insight — but when primaries and secondaries use that information *together*, it becomes transformational.

Most schools analyse their KS2 SATs in isolation, but pupils don't move through the system in isolation. By working together with your Secondaries, you can create a joined-up picture that ensures every lesson learned in KS2 powers progress from the start of KS3 and beyond…

This isn't about accountability — it's about collaboration, insight, and improvement.

The Power of a Connected View

Sharing your QLA data unites primaries and secondaries around one mission: ensuring every child moves into Year 7 with clarity, continuity, and a real plan for progress. This is transition powered by insight — not paperwork

- A shared understanding of pupils' strengths
- A consistent approach to teaching key concepts
- A smoother transition experience for every child
- A stronger relationship between schools

One dataset. Two phases.

One joined-up picture that drives progress for every learner.

Data, Analysis and Insight for School Improvement

Transition Analysis

Unlock the Story Behind Every Scaled Score

As your new Year 7s settle into Secondary School, don't just review their SATs scores — **use them strategically.**

Forensic Analysis of your New Year 7's SATs Results

Our analysis, created in collaboration with teachers, ASTs and a former Maths Hub Lead, has been designed with Ofsted, Departmental Heads and Class Teachers in mind. We've engineered a suite of reports that does the heavy lifting for you — giving your staff the clarity they need to teach smarter, plan quicker, and intervene earlier.

What We Provide..

📊 **Strategic Leadership Reports**
High-level summaries to support curriculum planning and long-term tracking.

🔍 **Cohort & Topic Analysis**
Detailed breakdowns by subject, topic and skill area — including insights by gender, disadvantaged status, SEN, EAL and prior attainment.

👤 **Forensic Pupil Profiles**
Individual reports highlighting strengths and development needs to support target setting and personalised intervention.

📚 **Custom Class Set Reports**
Once your teaching sets are finalised, send us your pupil lists and we tailor the analysis to match each class.

Click for a more detailed guide through the analysis.

How do we create the Transition Analysis?

To create your analysis, we will require you to download the results from Analyse School Performance and send them to us (Instructions are provided).

We will then transform the numbers into Overview packs. If you would like the bespoke class sets created in your teaching groups – we will require a named list including UPNs and we will recreate the analysis free of charge.

Data permitting, we hope to be able to create your analysis as soon as possible to the start of the winter term.

"Daisi Transition provides key topic evaluation to prioritise areas of focus in the catch-up sessions enabling more targeted and focused intervention to take place."

KS3 Teaching and Learning Leader, Trinity Catholic High School, Essex

Data, Analysis and Insight for School Improvement

How to Order as a Federation

We understand the financial pressures and operational demands facing today's school groups

That's why we've created a flexible, value-driven partnership offer designed to support wide improvement, provide consistency across all schools, and give headteachers the freedom to access the analysis they need.

Two Options

Centrally Placed Group Order or **Partnership Discount Scheme**

Federation Group Order

Fixed 20% discount for all Group Orders.

Ordering as a group unlocks a powerful, joined-up view, providing comprehensive insights for all stakeholders, from classroom to boardroom. Our dual-level analysis supports both school-level reflection and cross-school collaboration, helping leaders align strategy, share best practice, and drive improvement where it matters most.

Full Service and **Focused** Discount

All our orders start with a conversation. We always work with you to create your bespoke order giving you a clear quotation first so you can clearly see what is required and what you are ordering. In every case, we will contact every school on your behalf asking for data permission and the data itself to be sent to us. Once the data is received, we will generate the analysis and return it all required by encrypted email.

Every Group Order includes..

Forensic Analysis for every Headteacher

We believe that each school requires a personalised solution to their data needs and so will create a timely, unique and tailor-made report for every headteacher. This will show all results in forensic detail enabling them to deep dive into the insight provided and act to change curriculum and guide learning.

Free Summary Report

Our summary reports give leaders and governors a clear, high-level view of performance across all the schools involved. By combining assessment outcomes, cross school comparisons, and national benchmarks, we equip you to challenge, support, and drive improvement where it matters most.

Partnership Discount Scheme

Designed to deliver value, adaptability, and long-term support, our **Partnership Discount Scheme** enables individual schools or settings within your organisation to benefit from fixed discounts (typically 10–15%) when ordering independently through our website.

Tailored Offers across our full range

We check every order we receive. If the school is part of your partnership group, the discount is applied automatically. Partners also receive:

- *Tailored offers throughout the year*
- *Unique discount codes for use by your schools only*
- *A simple, secure method using school names, URN/ESTAB or LEA numbers to validate eligibility*

This gives headteachers the freedom to access our trusted, forensic analysis and insight in the way that suits them best—without requiring a centrally placed order.

At the same time, it guarantees a consistent and coordinated approach across your wider organisation, as all leaders can be directed to one central location - an exclusive partner page on our website.

Exclusive Partner Advantages

We also guarantee the best price for any centrally placed order across all your schools — giving you access to deeper, more comprehensive analysis than a basic group order. Whatever your organisational priorities, we can design analysis around your needs. Looking for something specific?

- *A deep dive by clusters*
- *Focus on one key area of the curriculum*
- *Tailored datasets or reporting structures*

This model has already delivered success in areas like Luton and Wirral achieving the perfect balance of flexibility, bespoke control, and trust-wide data coherence.

Contact Us

We'd be delighted to discuss how our reporting packages can support your Federation's goals. Please don't hesitate to get in touch to explore how we can work together to drive improvement across your schools.

DAISI Education

Data, Analysis and Insight for School Improvement

We are a team of expert analysts passionate about turning data into meaningful insight to help all pupils realise their potential.

DAISI Education was founded in 2011 supplying bespoke analysis to schools in the City of Nottingham. We have now grown nationally and more and more individual Schools, Academies, Trusts, Federations and Local Authorities have chosen us for forensic analysis of their data.

We firmly believe

Every School is INDIVIDUAL & needs personalised insight

Every Pupil is IMPORTANT & deserves true attention

Every Trust/Federation is DISTINCTIVE & requires bespoke detail

Every Report is UNIQUE & Tailor-made

We make analysis easy giving clear and insightful reports that help make the marginal gains to improve school results. We believe that each school requires a personalised solution to their data needs and offer timely, unique and tailor-made reports. Headteachers, Governors and School Improvement advisors have all praised our reports as being *"Accessible to all" and "Outstanding Best Value"*.

"Analysis from DAISI Education seriously helps to reduce the workload for Senior Leaders"

HEADTEACHER CHAT

As a traded service out of Nottingham City Council, our reporting also serves Local Authority officers and Education Improvement Boards with the intelligence needed to inform strategic dialogue and direction. We offer a full year-round service and every penny we create is put straight back into education.

In 2019, we were recognised as a 'world class supplier' for our work with outstanding schools by the world schools network – further proof of that our attention to detail and focussed data analysis is continuing to make a difference across the country.

World Class Supplier to World Class Schools

Why not make DAISI a key part of your School Improvement Journey this year?
